

FLUE GAS HEATERS

OF THE NEXT
GENERATION IN A **MODULAR DESIGN**

For industrial applications

BOMAT invests in
Efficiency, Quality
und **Condensing**
Technology.

**CERAMIK, STAINLESS
STEEL OR PLASTIC**

Highlights of our new flue gas heat exchangers.

- Suitable for operation with fuel oil, natural gas, biogas, sewer gas and landfill gas
- Up or down-sizing: exactly as you require
- Pipe sections individually selectable
- Easy to clean due to slide-in heater bank
- High heat recovery yield
- Low pressure drop on the flue gas side and fully corrosion-resistant
- Short payback periods
